Phylogenetic tree showing relationships between five taxa. The tree is rooted at the bottom with Pogorzelski K. The first split separates Pogorzelski K. from a clade containing the other four taxa. This clade splits into a pair (Pelc A., Bucholc J.) and a pair (Piasecki J., Smoczyński A.). The bootstrap values for the internal nodes are 0.5:0.5, 0.5:0, and 0.5:0.

```
